

INTERNATIONAL SUFI MOVEMENT

## Visalat Day 5th February 2016

From our Master's Teachings: "Philosophy, Psychology and Mysticism," we read:  
"Life's Journey is the coming of the Soul from its origin; but we are not aware of the condition of the Soul either before or after that Journey".

During the Journey, The Present is the consequence of a hide-and-see game, played between the Past and one's own Will Power; but both are Nevertheless, under Destiny's command. In the Future, the fruit of the seeds planted day by day, shall prove sooner or later to be either sour or sweet.

Each individual could be seen as a lamp, shining out in different shades of light. The brightness of that light varies in accordance to the inner condition of the Heart; and all are blessed with the same current of the "Spirit of Guidance", inspiring each in different ways, contributing thereby to the Divine Cause, assigned to us all by providence along the Journey.

Today, the 5th of February, we are welcoming each other in devoted attunement to the Life's Journey of our Master of us all, who left in our hands the responsibility of spreading the Message brought to Humanity, in a Call for Unity of Religious Ideals, practiced in full Spiritual Liberty, and in line with the great Ideals of Love, Harmony and Beauty.

Let us meditate together on these great Ideals, in attunement to our Master of us all, whose Guidance is constantly within our hearts.
