and the President of the International Publications Committee

The Message of Love, Harmony and Beauty is like a Divine stream of spiritual evolution flowing onwards through our daily lives in an awakening to purity and wisdom, which is the true essence of all that is understood by the term 'Sufi'

Beloved Sufi brothers and sisters,

At the occasion of this special 79<sup>h</sup> Visalat Day celebration, pilgrims from all over the world meet in thought, offering their devotion and gratitude to the memory of our "Master", whose historical proclamation known as The "Sufi Message of Unity of spiritual Ideals" has so deeply moved the hearts of thousands, over the years.

From far across land and sea, in the legendary City of Delhi, where the sacred Dargah of Hazrat Inayat Khan stands as a symbol of "Unity", beyond distinctions and differences, we are constantly reminded to hearken to the call which resounds in our hearts as celestial music, inspiring us on the path, each time that we attune ourselves to the spiritual guidance which is ever present.

Seventy-nine years have passed since our Master walked on this earth, but his luminous presence is as bright as ever before, reminding us of our responsibilities in spreading the Message in our time, which is gradually shaping human thinking in the direction of freedom of illusions, in line with the great Ideals of Spiritual Liberty.

In a diamond, there are many facets, all flashing forth different colours; in one family, where there may be several children with different first names, yet all have one and the same family name. In the same way, in the great Family of Sufi brothers and sisters, each has their own understanding, yet all have one and the same family name, known as the "Sufi Message of Love, Harmony and Beauty."

With all the love in our hearts from your brother and sister,

Hidayat and Aziza
